OBJECTIVE

I am a motivated and creative professional with a bachelor's degree in finance and completion of a technical coding bootcamp. I offer comprehensive knowledge in data analysis, programming, and over 2 years of experience in various industries. Adept at thriving in fast-paced environments, I am familiar with large datasets and am interested in expanding my skills to include dbt and Python. Possessing a natural curiosity and investigative mindset, driven by a desire to understand data trends and phenomena, I am seeking this challenging role to apply my diverse skill set and contribute to the success at your company.
